

KidsPack Packing Event

October 1, 2022

10:30 to help set up and unload truck

11:00 packing begins

Here is your chance to help with a hands-on project. We will be packing backpacks with food.

While subsidized school breakfast and lunch programs are in place during school hours, what happens at mealtime for these very same children evenings, weekends and over summer months?

kidsPACK strives to bridge the gap.

Working with local community volunteers, we are able to pack food for children to take into their homes and serve as sustenance when they are not at school.

The benefits are long-lasting. Hunger has a direct link to a child's ability to learn as well as health.

Studies show that nourished children experience:

- Less anxiety,
- Reduced absenteeism,
- Improved attention span,
- Higher academic performance, and
- Increased self-esteem.

Whether a child is living out of a car, with a relative, or in a hotel – kidsPACK serves to help make sure that no child goes hungry.
